Mahogany

Our Mahogany Furniture is designed by highly educated and well trained men who have adopted furniture making as a profession.

Then, there's as much difference between the cutting of lumber to-day and 50 years ago as between a father and his 12-year-old son carving a Thanksgiving turkey — you don't get any cleverly concealed beeswax or putty patches in our mahogany furniture — it's made by the best standard manufacturers, and only the most perfect lumber is used, and, owing to the economical and scientific methods of lumber cutting and furniture making, the finest mahogany furniture does not cost more than 5 or 10 per cent. over oak furniture.

Buy Mahogany Furniture — even your great grandchildren will enjoy its possession and use if you buy it from

NO MORE TROUBLE WITH NICARAGUA

Government Settles With George E. Emory Company on Basis of \$500,000.

WASHINGTON, September 18.—Representatives of the Nicaraguan government and the George E. Emory Company, of Boston, whose claim growing out of the temporary annulment of the company's concession has been pending for some time, reached an agreement to-day, the Nicaraguan government agreeing to pay the company \$500,000 for the purchase of the concession and the company waiving all claims against Nicaragua. The issue has been a notable one, and the delay of Nicaragua in failing to come to some basis of settlement came near resulting in the breaking off of friendly relations between the United States and that country.

Sunday Concert Program

The concert this afternoon in Regent Park will take place from 4 to 8:30, if the weather is clear. If it rains it will be held at that time in the Horse Show Building. The feature of the program for the afternoon will be the Polish Patriotic Song and the cornet solo, "Prayer," by Michael Crump. Other features of the program will include "Red Moon," "The Garden of Dreams," "Lazarus," waltzes, Medley, overture, "Condolence," intermezzo, "Gay Life," comic opera selection, "Rust," "Dead of the Pen," and "Star Spangled Banner."—Adv.

sloner who came from Nicaragua to arrange with Minister Espinosa for the settlement of the claim, made a statement to the following effect: In consideration of the payment by Nicaragua of \$500,000, the Emory Company transfers to our government all its steamers, railroad lines, tramroads, wharves, camps, shops, cattle, plant and equipment; in fact, everything it possesses in Nicaragua, and surrenders immediately all claim to the concession. This ordinarily would have been five years more to run. The company releases all its claims against Nicaragua, and the latter relinquishes all counter-claims against the company. The money is to be paid to the company in eight instalments, running over a period of five years—four of \$50,000 each and four of \$100,000 each. Mr. Gonzales says he thinks the arrangement arrived at is a good one, and the result will be a strengthening of the relations between the United States and Nicaragua.

FOREST FIRES RAGING

Destructive Flames Thought to Be of Incendiary Origin.
WALLACE, IDAHO, Sept. 18.—Four disastrous forest fires, two supposed to have been of incendiary origin, are raging in the Coeur d'Alene national forest reserve. One homestead has been destroyed by the flames and another is threatened. The entire available force of forest employees has been called to the scene of the four fires. One fire is near the town of Murray, another on the North Fork, a third at Old Mission, and the fourth is near Eganville.
The fires are reported to have considerable headway and much valuable timber is in danger of destruction.

WATCHES GO UP

Prices of Timepieces Increased 7 1-2 Per Cent. in All Lines.
CHICAGO, Sept. 18.—It transpired to-day that two leading watch manufacturers

ing companies recently sent out simultaneously, but not concertedly, it is averred, notices to jobbers advising them that the price of watches is to be increased an average of 7 1-2 per cent. on all lines.
The Western Company's advanced price went into effect on Sept. 15, while the Eastern Company's new price scale becomes effective on Sept. 20. Representatives of the two companies assert that there is no combination to increase prices, and deny that the new tariff caused the advance.
Jobbers, however, declare that the new tariff on watches equals the higher price announced by the watch companies.

FRESHMAN NEAR DEATH

Received Probably Fatal Injury at Hands of Havers.
TOLEDO, O., Sept. 18.—Harry Kirk, a freshman in the Coshooton high school, is near death with a fracture of the skull sustained in an effort to save his half from being clipped by sophomore havers. In running away from the havers, Kirk fell into an open cellar-way striking the basement floor on his head. Surgeons removed part of his skull.

GOING TO CLEVELAND

Vice-President Sherman Will Attend Good Roads Convention.
CLEVELAND, O., September 18.—Vice-President Sherman will be in the city Tuesday. President W. F. Bonnell, of the Cleveland Automobile Club, received a telegram from the Vice-President to-day saying he would attend the good roads convention on that day.

MILLE. BERNHARDT IS TO WED SOON

Granddaughter of Famous Actress Figures in International Romance.

PHILADELPHIA, Sept. 18.—Invitations received in this city call attention to another international romance which will culminate in Paris Sept. 25 in the marriage of Mademoiselle Simone Bernhardt, a granddaughter of Sara Bernhardt, the famous actress, to Edgar S. Gross, elder son of Mr. and Mrs. Henry B. Gross, formerly of this city, but now residing in London.

Mademoiselle Bernhardt, who is the daughter of Maurice Bernhardt, the only son of the actress, is a beautiful girl of about 19 years. She resides with her parents at Le Chesnay, Versailles, where her grandmother also makes her home.

Mr. Gross, who is 23 years old and a graduate of Princeton, has a wide circle of friends in this city. He makes his home with his parents at 18 Hyde Park place, London.

Until about ten years ago the Gross family lived at the handsomest residence at the northeast corner of Twenty-second and Chestnut streets, which, during their home there, was a treasure house of art, furniture and interior decoration. Mr. Gross made a large fortune from the sale of a widely advertised soap. The wedding, which will be an elaborate and largely-attended affair, will be solemnized at noon, Sept. 25, at the Church of St. Anthony of Padua, Paris. The young couple have been friends since Mademoiselle Bernhardt's convent days, and judging from the form of the invitations received by friends in this city, their union has been arranged with due regard for French ceremonial.

In accordance with the French custom invitations to the nuptials have been issued by both families, and the bride-to-be's distinguished grandparent's name heads the engraved card.

Engraved in French the two invitations are as follows:

Madame Sarah Bernhardt
Monsieur et Madame Maurice Bernhardt
ont l'honneur de vous faire part
du mariage de
Mademoiselle Simone Bernhardt,
leur petite fille et fille,
avec Monsieur Edgar S. Gross
et vous prient d'assister
a la benediction nuptiale,
qui leur sera donnee le 25 Septembre, 1909,
en l'Eglise de St. Antoine de Padoue,
a midi.

LE CHESNAY, Versailles.

Monsieur et Madame Henry B. Gross
ont l'honneur de vous faire part
du mariage
Monsieur Edgar S. Gross,
leur fils,
avec Mademoiselle Simone Bernhardt
et vous prient d'assister
a la benediction nuptiale,
qui leur sera donnee le 25 Septembre, 1909,
en l'Eglise de St. Antoine de Padoue,
a midi.

R. S. V. P.
Londres, 18, Hyde Park Place.

Following an extended wedding tour, Mr. and Mrs. Gross will reside on the Continent.

Henry B. Gross, father of the bridegroom-to-be, after accumulating his fortune and buying a handsome Walnut-street house, endeavored to attain social recognition in Philadelphia. The social success of the family did not come up to his expectations, however, and about ten years ago he suddenly grew disgusted, sold the house and moved to England.

ADmits LEPROSY CANNOT BE CURED

Report of International Congress Shows Progress Made by Dread Disease.

WASHINGTON, D. C., September 18.—Virtually admitting the incurability of the dread leprosy, declaring that the disease is contagious from person to person; that every country in whatever latitude should isolate those suffering from the disease; that children of leprosy parents should be separated from them at the earliest possible moment, and leprosy should not be allowed in certain trades or occupations, resolutions were adopted by the second International Conference on Leprosy, held in Bergen, Norway, August 16 to 19 last.

A report of the conference was made public by the Public Health and Marine Hospital Service to-day. The report was prepared by Dr. Donald H. Currie, of the Public Health and Marine Hospital Service, and director of the leprosy investigation station at Molokai, Hawaii, one of the official delegates from the United States.

The resolutions, after declaring that clinical study of leprosy induces the belief that it is not incurable and that at present a certain cure is not possessed, expresses the desirability of continuing the search for a specific remedy with the greatest zeal.
"Every country, in whatever latitude it is situated, should endeavor to recognize in the range of possible infection by leprosy, and may, therefore, usefully undertake measures to protect itself."

In view of the success obtained in Germany, Iceland, Norway and Sweden, it is further declared, it is desirable that other countries should isolate leprosy.

A somewhat startling prevalence and widespread distribution of leprosy is indicated by statistics furnished by delegates to the conference, there being approximately 200,000 cases of the disease throughout the world. The fact must be kept in mind, it is pointed out, however, that a comparatively large percentage of leprosy is not recognized in the early stages of the disease, and further that concealment of cases probably exists to a greater or less extent in every country on the globe which adopts any measure looking to the isolation of such cases.
It is stated, holds the world's record with 7,340 cases; Japan follows in close succession with 40,000 cases, and so on down the scale with 146 cases in the United States, and the canal zone showing the minimum of seven cases.

NEW STAMP ISSUE

Post-Office Department Will Make It Conform to Increased Registration Fee.
WASHINGTON, D. C., September 18.—A stamp of a new denomination is to be issued by the Post-Office Department to conform with the recent increase in the price of registration from 10 to 15 cents. The new issue is to be a 13-cent stamp, so that on ordinary letters one stamp will suffice to pay for postage and registration. The probable effect of this new stamp will be to retire the 13-cent stamp now issued, which was put out in a genuine conjunction with registered letters going

abroad, 5 cents being for postage and 3 cents for registration.

ENGLAND SUPPORTS PEARY

Lord Balfour Rather Skeptical Toward Dr. Cook.
NEW YORK, Sept. 18.—Lord Balfour, of Bute, who is a member of the com-

mission appointed by King Edward to protect colonial trade, arrived to-day on the steamer Campania from Liverpool. He is on his way to Canada to adjust a difference in the commerce treaty between that country and the West Indies. Lord Balfour, Sir Daniel Morris, and his secretary, the Hon. G. A. M. H. Gordon, a son of Lord Strathmore, accompanied Lord Balfour to this country.

Lord Balfour said: "The general belief in England is that the claims of Peary are more substantial than those of Cook. Much of this opinion springs from the statements of scientific men of England, many of whom have been skeptical about the claims of Cook from the start."

PORTER, 219 North Fifth, saves you money on shoes. There's a reason.

Timely Notes Concerning the New Fall Merchandise

—and Incidentally Some Chances to Save Money on Wanted Things
